## Trending Deals

### **Description / Instructions:**

What's a trending deal? Trending deals are the most popular deals based on all users across all preference categories. This is your opportunity to look outside of your existing preferences to see what other members are interested in.

As the number of ihiveLIVE members grow you can check trending deals to find out what other people are buying.

This may help you identify great deals or new opportunities you may not have noticed

## All Deals

### **Description / Instructions:**

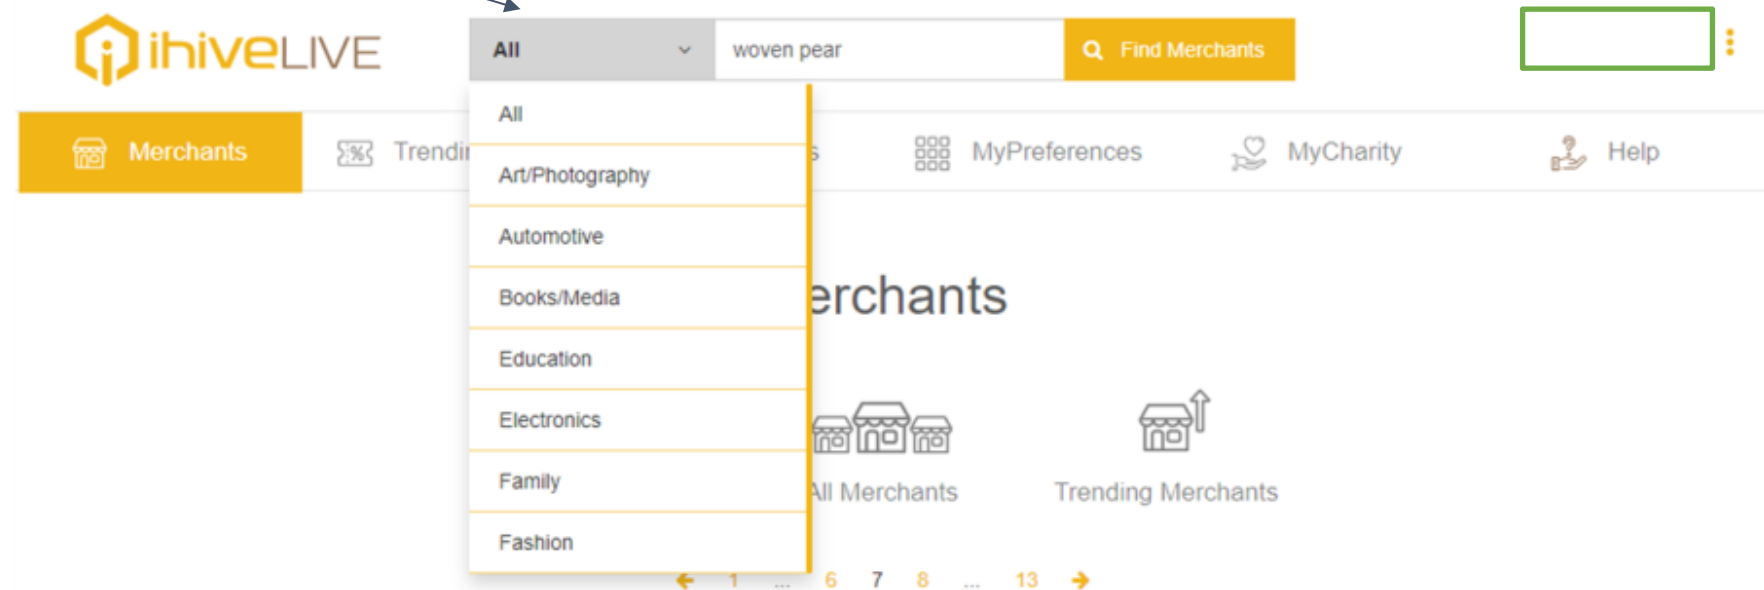

"All Deals" includes every deal available on ihiveLIVE.

Why would you select preferences and then want to browse 'All Deals', you ask? Well, we've heard from many shoppers that although they like to be pointed toward their preferred categories, sometimes they like to see other merchant deals when they are looking for gift ideas, for example.
